ABOUT THE EVENT

The Public Sector Governance & Compliance Conference 2026 is a national convening platform dedicated to strengthening governance, regulatory compliance, ethical leadership, and accountability across South Africa's public institutions.

In an environment characterised by heightened public scrutiny, fiscal pressures, and increasing service delivery expectations, governance and compliance are no longer administrative functions; they are foundational enablers of institutional credibility, public trust, and effective public administration.

Sponsored by Mkhwanazi Inc. Attorneys, this high-level conference brings together senior public servants, regulators, state-owned entities (SOEs), oversight bodies, and governance practitioners to engage in strategic dialogue on the evolving public sector governance landscape.

EVENT OBJECTIVES

- Strengthen governance and accountability
- Enhance regulatory compliance and risk management
- Enable strategic dialogue and knowledge exchange
